FILE HEADING.

Special Police Force to be stationed at Kannambadi during the construction of the reservoir across the Cauvery.

From

The I. G of Police in Mysore.

No. 1849/209 Dated 8-11-11. Received 9-11-11.

Diary No. J1267	Enclos.	Spare Copies.	Serial No. 1

BRIEF ABSTRACT OF LETTER.

Brings to the notice of Govt the necessity of stationing at Kannambadi a special Police Force at a cost of Rs 146 per mensem, to maintain peace and order in the camps of coolies, the cost to be met from the P.W.D. Budget.

NOTES AND ORDERS.

The I. G points out that at least 10,000 coolies will be engaged in the work, and about six or seven thousand will be encamped on the south bank of the river for the first year, the rest being shifted on the north bank, and a police force is very necessary at the place. It will be consist-

Subd with Vol I, II & III of the Police Code -

N-36
25/11/1911

The Police contemplated by the Police Code is the guard furnished by existing Police in charge of post moneys or in guarding Cash chests - The proposal now before us for the policing of the new Municipality Coorg town at Kannanbadi. This is purely a Police Department function and has nothing to do with the Municipality. The entire cost should be borne by the Police Deptt. Moreover perhaps it would be worth while to economise expenditure by transferring from the Reserve Police Lines district or Dist. Pr. duty there with some local allowance than employing fresh staff which means additional expenditure.

This seems to be impracticable. 27/11/11. SA

Pol. Memo. No 112/1911-1 :: 7

Re Marikanve Police.

15) 1. In December 1897 the Police Force of the Chitaldrug District was increased from 510 to 659 officers and men. vide Government Proceedings No.7401-2/J.852 dated 28-12-97.

2. Subsequently in the year 1898 when the Deputy Commissioner applied for an increase of Police force to the Marikanve Police station on account of the Marikanve Reservior works, he was informed that as the Police force of the Chitaldrug District was recently increased, the required number of officers and men might be got by withdrawing men from different stations in the District by revising their allocation.

From the information received from the District, there were in all 1 Jamedar, 2 Daffedars and 22 constables working in the station during the progress of the works. The original strength of the station was 1 Daffedar and 5 constables.

Besides these, 4 constables had been deputed under the Executive Engineer for duty to watch his camps.

In addition to the force, special Police arrangements had been made by opening out-posts to ensure the safety of the travelling public, escorting carts arriving from different parts to the Marikanve shandy &c. This arrangement which was then possible is not at present feasible owing to the introduction of the Investigating Centre Scheme.

Proposal allows a staff of 1 Inspector, 2 Jamedars, 2 Duffedars and 36 Constables as the whole post against the original proposal of having 1 Jamedar, 2 Duffedars and 15 Constables. The cost would be £46 and £46 respectively. Under the revised scheme Cost 300 for nine months. When the Lautokanave writes here in full showing the staff as 1 Jamedar, 2 Duffedars and 22 Constables there were taken out of the Establishment without any extra cost. Without discussion as to the most it can reasonably be questioned if the staff should not be enough here. The Constables are under the same and been admitting that the Investigation Centre scheme does not allow any men being drawn upon the Establishment may see Sunn of the Inspector one Jamedar and 14 Constables. The only thing revised Estimate would be only £46 or 100 more than the original proposals of the 9th. In fact that a modest scheme was first proposed to implement

That was before the I.C Scheme which was meant to increase the efficiency of the force without adding to the cost - whatever possible was shared under the N.C.O's cannot be possible at present - CK

and small practical purposes would seem
to be enough. The scale as proposed in these
rules would be as follows.

1 Jamedar	28+8
2 Duffedars @ 12	24
7 Constables @ 9	63
15 Constables @ 8	120
Contingencies	6
Total	246.

39 Even where police guards are supplied
for watching Cash Chests the Cash has still to
be borne & the Police Deptt not & the Govt.
Nor does it seem necessary to have Cash Chests
in every place. The Central Chest requiring
a guard would be in the D.E.'s Office & the
other Offices would have only imprest amounts
for which no guard would be necessary.

7.4.12

Agreed.

40 I would suggest for consideration if the
men required at Kanambadi may not be
found from the Dist & Special reserves.
Prima facie it seems quite possible. I
see that the suggestion was made

Police Jdl No 112 J 1911-12 21

Submitted to His Highness.

53 In connection with the construction of the Cauvery Reservoir near Kannambady, a large cooly population has gathered there. To maintain peace and order in the cooly camp and to guard P.W.D. Treasuries on both banks of the river, a temporary Special Police Force has to be stationed at the works.. Mr. D. Devaraj Urs, as Inspector General of Police, considered in November 1911 that a Police force consisting of -

T

1 Jamedar
2 Daffedars and
12 Constables

would be necessary. But on an inspection of the site, taking into consideration the divergent character of the coolies and the necessity to maintain peace and watch in and round the locality, Mr. C. Srikanteswara Aiyar states that the force estimated by his predecessor would be inadequate under the present circumstances and that a larger force has to be entertained as shown below:-

1 Inspector
2 Jamedars
2 Lance Duffedars
36 Constables.

54 2. The Second Councillor agrees with Mr. Srikanteswar Aiyar

Police file no 112 of 1911-1 22

Srikanteswara Aiyar that a larger Police is now necessary but not to the extent proposed by the Inspector General of Police. He has shown how one Jamedar and ten Constables can be reduced by re-arranging their duties.

3. The accompanying draft of Government Order is in accordance with the orders of the Second Councillor aggregating an annual expenditure of Rs.4,008/- and it may be approved.

No. 1849 / 209

OFFICE OF THE INSPECTOR-GENERAL OF POLICE IN MYSORE,

Dated Bangalore, 8th November *1911*.

FROM

D. Devaraj Urs Esquire,

Inspector-General of Police in Mysore.

To

C.S. Balasundaram Iyer Esq., B.A.,

Offg. *Secretary to the Government of H. H. the Maharaja of Mysore, General and Revenue Departments.*

SIR,

With reference to Government Proceed-
-ings No.C.13-19/84-90 dated 12th ultimo sanctioning 717
a project for the construction of a reservoir across
the Cauvery River at Kannambadi, I have the honour to
state that the Superintending Engineer of the project
states that arrangements are being made to collect labour
for the work and it is expected that, when in full
strength, it will number about 10,000 workmen who will
be encamped on both the banks of the River. In the first
year he says there will be 6 to 7 thousand workmen on
the south bank, the rest being hutted on the north bank.

He requests that necessary arrangements may be made for
keeping order in camps &c.

2

2. I am of opinion that it is absolutely neces-
-sary for a temporary Police force of 1 Jamedar, 2
Daffedars and 12 constables to be stationed there. The
entire force will not be entertained all at once but
only as necessity arises in proportion to the increase
in the number of coolies. The cost of the force amounts
to Rs 146/- per mensem as noted in the margin which will

1 Jamedar, 2nd grade @ 20	8 28	have to be met from
2 Daffedars 2nd do. @ 14	28	the P.W.L. buaget.
4 constables 1st class @ Rs 8/- each.....	32	I request that you
8 do. 2nd class @ Rs 7/- each.....	56	will be so good as
Total.....	144	
Contingencies.....	2	to obtain early
Grand total.....	146	orders of Govern-

-ment in the matter.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector-General of Police.

No. 3778/458 My Urgent 3

Office of the
Inspector-General of Police in Mysore.
Dated Bangalore, 22nd March 1912.

2328
File 210/12-11
Sc. no. 2

From

C. Srikantesvara Aiyar, Esqr., B.A. B.L.,
Offg. Inspector-General of Police in Mysore.

To

C. S. Balasundaram Iyer, Esqr., B.A.,
Offg. Secretary to the Govt. of H. H. the Maharaja
of Mysore, General & Revenue Departments.

Sir,

In continuation of my Office letter No. 1849/209 dated the 8th November last, anent Police Establishment in connection with the Cauvery Reservoir Works near Kannambady, I have the honour to submit, after inspecting the locality and studying the circumstances and requirements of the situation in consultation with the responsible officers of the various Departments concerned, as follows :-

2. Besides attending to various miscellaneous duties which the Police are expected to do and which are too numerous to find a reference here, the following are some of the more important and routine duties requiring a minimum number of constables specified against each:-

(i) Watching the various gangs and suspects etc, and their camps on both Banks of the River, and also attending to the sanitation of the locality and surroundings ----------8 constables;

(ii) 2 Beats towards Kannambady and Seringpatam ---------- 2 constables;

4

(iii) Station Hazries at the 2 Stations, one on each Bank of the River ---------- 2 constables;

(iv) Writers for the said 2 Stations 2 constables;

(v) Watching 2 to 3 miles length of both sides of the river banks for safeguarding the purity of the Mysore Water Supply etc ---------- 6 constables;

(vi) Guards at the 2 Ferries to prevent overloading of coolies and averting accidents -------- 2 constables;

(vii) Treasury escorts, patrolling and guarding the roads and watching the 4 important Shandies at Seringpatam, Balamuri, Palhalli and French Rocks ---------- 6 constables;

and (viii) Guarding the 2 D.P.W. Treasuries one on each side of the Bank -- 8 constables, by suitable shifts.

3

3. The minimum strength of constables thus needed at the Kannambadi Works alone will be 36, about a dozen of whom will be posted at a Station on the Northern bank of the river where 4 to 5 thousand people will be expected to be working in course of time, whilst the rest will be for the Station on the Southern bank, where the principal works are situate, with about 10 to 12 thousand coolies quartered eventually.

4. (i) Watching the gangs etc. There are already 6 to 7 thousand men at work on the spot, coming from various parts, with all shades of character, and it is likely that the muster roll will soon swell up to ten thousand or more. Such promiscuous floating population needs thorough watching, not only against local disturbances and disorders and raids in the adjoining

5

villages but also to ensure adequate protection to person and property of the numerous artizans, traders and hotel-keepers etc, who are already settling down in large numbers. Petty thefts of agricultural produce, fowls etc in the surrounding villages are on the increase and becoming frequent, and cry about roads and cart-tracks being infested by these cooly gangs is getting louder. To provide against all such evils, it is absolutely necessary to have a sufficient Police force in reserve, but I have now only provided for an indispensable minimum.

4

(v) Watching the river banks. Long distances on both banks of the river are studded with the camps of the cooly population, which will be on the increase. Unless most stringent measures are adopted and sufficient watch maintained on a regular system of shifts to effectively prevent the pollution of the banks as well as the water, the health of the City of Mysore as well of other towns and villages on both banks of the Cauvery lower down will seriously be jeopardized.

(vi) Guarding the ferries. Coolies in their eagerness to get to or from the scene of work rush on to the ferries without any thought, and nothing but a Policeman's presence on the spot can prevent such rushes and avert accidents etc.

(vii) Treasury escort etc. Large consignments of treasure are received from the Government Treasuries frequently and they have to be transported with suitable escorts. In the vicinity of the cooly camps 4 important shandies are held at Balamuri, Palhalli, Seringpatam and French Rocks, from which alone provisions can be got. It is therefore essential that on the shandy days the high ways and paths leading to them have to be strongly policed.

(viii) Guarding the D.P.W.Treasury. In the absence of Military guards, the Police have to furnish the suitable sentry.

The items of duties need no remark.

b

5. Owing to the inaccessibility between the two banks of the River and Stations thereon during flood times, separate officers will be necessary, and it is proposed to have a 1st class Jamedar on the Northern bank, with a 2nd class Jamedar under a capable Inspector on the Southern bank, the whole area of the works, with a few villages in close proximity thereto, being constituted into a special circle or range, under the said Inspector, to be in direct subordination to the Superintendent of Police at French Rocks; or else placing the Northern Station under the Krishnarajpet Taluk Inspector and the Southern Station under the Seringpatam Taluk Inspector, to whose respective jurisdictions the localities belong, would involve serious loss of time and grave administrative inconvenience, resulting in various evil consequences due to want of promptitude and efficient grappling with a complex situation on the spot.

5

6. The total force required will therefore be 1 Inspector, 2 Jamedars and 36 constables, with 2 Lance Duffedars to supervise their rounds and getting the instructions carried out etc. The nature of the Police Officer's duty here is quite unlike that of a Taluk Inspector who has only to manage a well disciplined and homogenous force, to do which he has the support of the Amildar also. Here, the Inspector is the sole officer and has not only to enlist and organize a strong force, but also to introduce discipline and maintain the same, which would require a strong and intelligent Inspector. His pay and status will accordingly have to be proportionately higher than that of a Taluk Inspector, consistent with the onerous duties he will be entrusted with. I would therefore recommend an Inspector on Rs. 60/- a month.

It has been the representation all over, that our constabulary is underpaid, and in a place like this where even ordinary unskilled coolies can easily earn over 4 annas a day, it is not practicable to enlist useful constabulary with our rates of pay. Sooner or later we may have to improve the rates. We may

7

therefore take advantage of this special work for trying the experiment and seeing how slightly improved rates would improve the tone and efficiency of the men. I would grant the 2nd and 1st Class Constables Rs. 8 and Rs. 9 respectively, as a tentative measure, instead of Rs. 7 and Rs. 8 as elsewhere. The financial aspect of the Scheme under the circumstances mentioned will be as follows-

1 Inspector on Rs. 60 plus 15, usual Horse allowance	Rs.75
1 Jamedar on Rs. 25 plus 8	33
1 do on Rs. 20 plus 8	28
2 Lance Duffedars @ Rs. 12	24
12 1st class constables @ Rs. 9	108
24 2nd class do @ Rs. 8	192
Contingencies	6
TOTAL	Rs.466 per mensem

7. Of this sum, Rs. 68 being the pay of 4 1st class and 4 2nd class constables for Treasury guard will be borne by the Public Works Department and charged off to the works under the D. P. W. Code, the balance of Rs. 398 being debited to Police Budget.

8. In view of the emergency of the situation by virtue of large number of people having already mustered round the works and pressing demand from the Superintending Engineer and local authorities for Police aid for Treasury etc, I have, in anticipation of sanction, already drafted 12 constables, 2 Jamedars and a capable Inspector, Dummiah, to the works, and have instructed the selection of most eligible constables from the permanent force for this special work, entertaining temporary constables in their stead in due course in the regular force, when the sanction to this proposal is received.

9. The progress of work at Kannambady has considerably

8

increased the Police duties at Paschimavahini Railway Station. Large number of cooly gangs arrive at and depart from the Station every day. The goods traffic has also tremendously increased. While I last inspected the locality, it was found that the passenger traffic alone had gone up from 847 and 885 in August and September last to 4,449 and 6,877 in January and February 1912, respectively, and that there were signs of all kinds of traffic increasing ere long. To cope with such rush and development of work, and to bring the arrivals and departures of various gangs etc under proper surveillance, it is imperative to add a couple of Railway constables to the existing strength, and also to locate a capable 1st grade Duffedar to maintain the necessary records of surveillance etc in connection with the incoming and outgoing gangs, and to properly watch their movements. The cost of it would be for

1 1st class Duffedar	Rs. 16
2 constables @ Rs.9	18
	Rs. 34 per mensem.

7

10. During the construction of the Marikanve Reservoir, 2 Jamedars, 3 Duffedars and 39 men are reported to have been engaged on special duty at the works. This force, however, was not specifically sanctioned for the works, but was drafted from the existing allocation of the District, which had just then been revised and considerably augmented at a cost of Rs.1,211 per mensem, and out of which increased force, the required detachment was directed to be made for the time being. Such drawing from any of the District Forces now is not possible, as they themselves are represented to be much in need of strengthening. The duties at Marikanve were not so many or onerous nor so varied as in the present instance. Near Marikanve there were not so many public roads or big towns or important populated villages which needed special protection; nor was there any necessity for 2 Stations or special precautions against

Vide Govt. Pro. No.7401-2/J.852 dated 28th December 1897.

pollution of river and its banks nor any ferries. There was, besides, only one Treasury to guard and merely the usual routine duties. The proximity of the Railway line running within a few miles of Kannambadi further complicates the present situation and renders the work of watching the movements of gangs etc much more difficult. All things considered, it will be seen that the establishment now proposed for the Kannambadi project is by no means excessive but very moderate for coping with a complex situation under the requirements and conditions of modern times.

11. I have therefore to request that you may be so good as to obtain early sanction of Government for the special force referred to in paras 6 and 7 above, costing in all Rs. 500 per mensem, or Rs. 6,000 (six thousand) per annum, out of which, Rs. 816 being debited to the Public Works Department, the balance chargeable to the Police Department will only be about Rs. 5,200.

I have the honour to be,

Sir,

Your most obedient servant,

C. Srikanta Varadiyar

OFFICE OF THE INSPECTOR-GENERAL OF POLICE IN MYSORE,

No. 4510 / 5-14 *Dated Bangalore,* 4 & May 191 2

FROM

C. Srikantesvara Aiyar Esquire, B.A.,B.L.,
Offg. *Inspector-General of Police in Mysore.*

To

C.S. Balasundaram Iyer Esquire, B.A.,
Offg. *Secretary to the Government of H. H. the Maharaja of Mysore, General and Revenue Departments.*

@ Sanction for additional number of 40 constables has been applied for- vide this office No.3322/404 dated 24-2-1912.

Sir,

With reference to your letter No. J.2949/P.112-11-3 dated 4th ultimo re the Police establishment required for Kannambadi, I have the honor to invite reference to my letter on the subject which clearly explains the situation and to append in the margin the information called for in the letter under reply.

No.	Place	No.of coolies	No.of constables	No.of constables per 1,000 people.
1.	Marikanave	15,000	39	2.6
2.	Kolar Gold Fields	24,000	242 @	10.08
3.	Kannambadi	6,000 now and expected to go to 15,000	36	2.4

2. As regards Sivasamudram works, I have to state that conditions and circumstances were quite different, there were no such building or works as at Marikanave and Kannambadi, but the major portion of the work was with machinery and that nevertheless we had given a special Police station and an officer for the purpose. We have no statistics as to how many people had mustered at the Sivasamudram works.

3. The condition and circumstance at Kannambadi being quite unique and

and different from all others, I request that the sanction of Government for my proposal which on perusal of statistics herein furnished will be found to be comparatively very moderate and more favorable, may kindly be obtained as early as possible, as from my inspection of the locality on the 30th ultimo and the report of the Superintending Engineer on the spot already submitted to Government, I find it is absolutely necessary to organize the Police Force at once to avert danger and prevent crimes &c.

I have the honor to be,

sir,

Your most obedient servant,

A. L. Kantawalla

Offg. Inspector-General of Police.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ :—

Letter No. 3778-458, dated the 22nd March 1912, from the Inspector-General of Police in Mysore.

In continuation of my office letter No. 1849-209, dated the 8th November last, anent Police Establishment in connection with the Cauvery Reservoir Works near Kannambadi, I have the honour to submit, after inspecting the locality and studying the circumstances and requirements of the situation, in consultation with the responsible officers of the various Departments concerned, as follows :—

2. Besides attending to various miscellaneous duties which the Police are expected to do and which are too numerous to find a reference here, the following are some of the more important and routine duties requiring a minimum number of constables specified against each :—

(i)	Watching the various gangs and suspects, etc., and their camps on both banks of the river, and also attending to the sanitation of the locality and surroundings	18 constables;
(ii)	Two beats towards Kannambadi and Seringapatam ...	2 constables;
(iii)	Station *Hazries* at the two stations, one on each bank of the river	2 constables;
(iv)	Writers for the said two stations	2 constables:
(v)	Watching 2 to 3 miles length of both sides of the river banks for safeguarding the purity of the Mysore water-supply, etc.	6 constables;
(vi)	Guards at the two ferries to prevent overloading of coolies and averting accidents	2 constables;
(vii)	Treasury escorts, patrolling and guarding the roads and watching the four important shandies at Seringapatam, Balamuri, Palhalli and French Rocks ...	6 constables;
and (viii)	Guarding the two Public Works Department Treasuries one on each side of the bank	8 constables, by suitable shifts.

3. The minimum strength of constables thus needed at the Kannambadi Works alone will be 36, about a dozen of whom will be posted at a station on the northern bank of the river where 4 to 5 thousand people will be expected to be working in course of time, whilst the rest will be for the station on the southern bank, where the principal works are situate, with about 10 to 12 thousand coolies quartered eventually.

4. (i) *Watching the gangs, etc.*—There are already 6 to 7 thousand men at work on the spot, coming from various parts, with all shades of character, and it is likely that the muster roll will soon swell up to ten thousand or more. Such promiscuous floating population needs thorough watching, not only against local disturbances and disorders and raids in the adjoining villages but also to ensure adequate protection to person and property of the numerous artizans, traders and hotel-keepers, etc., who are already settling down in large numbers. Petty thefts of agricultural produce, fowls, etc., in the surrounding villages are on the increase and becoming frequent, and cry about roads and cart-tracks being infested by these cooly gangs is getting louder. To provide against all such evils, it is absolutely necessary to have a sufficient Police force in reserve, but I have now only provided for an indispensable minimum.

(v) *Watching the river banks.*—Long distances on both banks of the river are studded with the camps of the cooly population, which will be on the increase. Unless most stringent measures are adopted and sufficient watch maintained on a regular system of shifts to effectively prevent the pollution of the banks as well as the water, the health of the City of Mysore as well of other towns and villages on both banks of the Cauvery lower down will seriously be jeopardized.

(vi) *Guarding the ferries.*—Coolies in their eagerness to get to or from the scene of work rush on to the ferries without any thought, and nothing but a Policeman's presence on the spot can prevent such rushes and avert accidents, etc.

(vii) *Treasury escort, etc.*—Large consignments of treasure are received from the Government Treasuries frequently and they have to be transported with suitable escorts. In the vicinity of the cooly camps four important shandies are held at Balamuri, Palhalli, Seringapatam and French Rocks, from which alone provisions can be got. It is therefore essential that on the shandy days the highways and paths leading to them have to be strongly policed.

Judicial and Legislative (Police), dated 10th May 1912.

maintain the necessary records of surveillance, etc., in connection with the in-coming and out-going gangs, and to properly watch their movements. The cost of it would be—

	Rs.
For 1 1st class dafadar...	16
" 2 constables at Rs. 9..	18
Total ...	34 per mensem.

10. During the construction of the Marikanve Reservoir, 2 Jamadars, 3 D and 39 men are reported to have been engaged on special duty at the works. This force, however, was not specifically sanctioned for the works, but was drafted from the existing allocation of the district, which had just then been revised and considerably augmented at a cost of Rs. 1,211 per mensem, and out of which increased force, the required detachment was directed to be made for the time being. Such drawing from any of District forces now is not possible, as they themselves are represented to be much in need of strengthening. The duties at Marikanve were not so many or onerous nor so varied as in the present instance. Near Marikanve there were not so many public roads or big towns or important populated villages which needed special protection; nor was there any necessity for two stations or special precautions against pollution of river and its banks nor any ferries. There was, besides, only one treasury to guard, and merely the usual routine duties. The proximity of the Railway line running within a few miles of Kannambadi further complicates the present situation and renders the work of watching the movements of gangs, etc., much more difficult. All things considered, it will be seen that the establishment now proposed for the Kannambadi project is by no means excessive but very moderate for coping with a complex situation under the requirements and conditions of modern times.

11. I have, therefore, to request that you may be so good as to obtain early sanction of Government for the special force referred to in paras 6 and 7 above, costing in all Rs. 500 per mensem, or Rs. 6,000 (six thousand) per annum, out of which, Rs. 816 being debited to the Public Works Department, the balance chargeable to the Police Department will only be about Rs. 5,200.

No. J. 3334-6.—Police 112-11-4, dated Bangalore, 10th May 1912.

Order thereon.—The proposals of the Inspector-General contained in the letter read above are sanctioned with the following modifications:—

(*a*) Instead of creating a new appointment on Rs. 60 per mensem, an experienced Inspector in one of the higher grades should be posted to Kannambadi and one on Rs. 40 per mensem entertained in his stead.

(*b*) Two Jamadars are unnecessary. A Jamadar of some standing (of whatever grade) should be posted to Kannambadi and stationed on the bank opposite to that of the Inspector, and in his stead a Jamadar on Rs. 20 per mensem may be appointed.

(*c*) As regards constables, 36 are deemed too many. Duties under heads (*i*), (*vi*) and (*vi*) referred to by the Inspector-General can be combined and performed by 10 men. Those under (*iii*) and (*v*) can similarly be combined and attended to by two men. The writing work should be done by the officers themselves assisted by the Dafadars, if necessary. Four men are sufficient for duties under (*ii*) and (*vii*) as they will be assisted by the Taluk Police. For Railway duty two constables are sufficient.

(*d*) The Police officers will get the same pay as those in the District Police. The constables will, however, be given a local allowance of one rupee each and the Dafadars a local allowance of Rs. 2 each. The allowances of Rs. 15 and Rs. 8 given to the Inspectors and Jamadars, respectively, will be treated as local allowance and not as horse allowance.

2. The Inspector-General's recommendation to constitute the new force into a separate unit with defined jurisdiction and working in direct subordination to the Superintendent of Police, French Rocks Circle, is also sanctioned.

3. A statement showing the additional establishment and the expenditure therefor sanctioned is appended hereto.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Inspector-General of Police in Mysore.
The Comptroller to Government.
The Chief Engineer in Mysore.

Statement showing the cost sanctioned in connection with the Police Establishment for Kannambadi.

Number	Designation	Pay		Total cost per month
		Pay	Allowance	
		Rs.	Rs.	Rs.
1	Inspector	40	15	55
1	Jamadar	20	8	28
2	Dafadars at Rs. 12+2 each	24	4	28
